

Agenda item 7 – CHC Update

1. Operational matters

- Discounted charging – Two-hour hire for the Acle and District girl guiding association
- Solar control window film fitted Wednesday 17th June to the lobby area windows. This was a timely installation and has made a big difference to the lobby temperature and will prevent the problems that we had last summer.
- After many years of trying to overcome the problem of proving the PC own the solar panels we have received our first Smart Export Guarantee payment, which is great reward for all Lynda's hard work on this matter.
- Ukulele & Pimm's evening 11th July – a very successful evening, great feedback, great to see hall full of people enjoying themselves. We also made £172 profit for hall funds.
